PROFESSIONAL SUMMARY

Backend-focused Software Engineer with 5 years of experience in high-traffic API design, database optimization, and microservices architecture.

EDUCATION

Hacettepe University — B.Sc. Computer Engineering

2013 – 2017 | GPA: 3.44 / 4.00

LANGUAGES

• English: B2 — Upper Intermediate (Cambridge FCE)

WORK EXPERIENCE

Senior Backend Engineer — Hepsiburada — Istanbul (2020 – Present)

Designed inventory management service processing 2M+ SKUs. Optimized PostgreSQL query performance by 60% using query planning and indexing strategies.

Backend Developer — Yemeksepeti (Delivery Hero) (2017 – 2020)

Built restaurant onboarding APIs in Python/Django serving 25K+ vendors. Migrated monolith to microservices architecture (Docker, Kubernetes).

PROJECTS

- **API Gateway Boilerplate:** Production-grade FastAPI gateway with JWT auth, rate limiting, and distributed tracing. 400+ GitHub stars.
- **DB Migration CLI Tool:** Python CLI for zero-downtime PostgreSQL migrations. Used internally at Hacettepe University labs.

INTERNSHIPS

Backend Intern — STM Defense Technologies (Summer 2016)

Developed RESTful APIs for satellite telemetry data visualization.

Database Intern — HAVELSAN (Summer 2015)

Database optimization and stored procedure development in Oracle SQL.

TECHNICAL SKILLS

Python, Django, FastAPI, PostgreSQL, MySQL, Redis, Docker, Kubernetes, RabbitMQ, Nginx, Linux, CI/CD

AI & MACHINE LEARNING

AI: Integrated OpenAI API for automated product categorization. Familiar with vector databases (pgvector) for semantic search. Completed DeepLearning.AI Practical MLOps course.
