PROFESSIONAL SUMMARY

Recent Boğaziçi University CS graduate with excellent academic record. Research experience in NLP and strong competitive programming background.

EDUCATION

Boğaziçi University — B.Sc. Computer Engineering

2019 – 2023 | GPA: 3.78 / 4.00 — Dean's List 6 semesters

LANGUAGES

- English: C1 — Advanced (IELTS 8.0)
- French: A2 — Elementary

WORK EXPERIENCE

Junior Software Engineer — Innova IT — Istanbul (2023 – Present)

Developing billing microservices in Java Spring Boot. Introduced automated contract testing, reducing integration bugs by 35%.

PROJECTS

- Turkish Sentiment Analysis Model:** Fine-tuned BERTurk on 100K reviews. F1-score 91.3%. Published on HuggingFace Hub.
- Competitive Programming Judge:** Online judge platform (Django + React) hosting university-level contests. 800+ registered participants.
- Graph Algorithm Visualizer:** Interactive D3.js web app teaching BFS, DFS, Dijkstra. Used in 3 university courses.

INTERNSHIPS

Software Research Intern — TUBITAK — Ankara (Summer 2022)

NLP pipeline for scientific paper classification. Co-authored internal technical report.

Backend Intern — Softtech (İş Bankası) (Summer 2021)

Developed API endpoints for mobile banking backend in Spring Boot.

TECHNICAL SKILLS

Java, Python, Spring Boot, Django, React, D3.js, PostgreSQL, NLP, HuggingFace, Git, Linux

AI & MACHINE LEARNING

NLP research background: fine-tuned BERT-based models, experience with Hugging Face ecosystem, text classification, and information extraction. Attended EMNLP 2023 as a volunteer.
